International application No.
PCT/CA2005/000420

A. CLASSIFICATION OF SUBJECT MATTER IPC(7): E04F 11/025

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC(7): E04F 11/025, 035, 09, 104, 108, 16 USPC: 52/182, 183, 188

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic database(s) consulted during the international search (name of database(s) and, where practicable, search terms used)

Canadian Patent Database, Delphion, Espacenet (stair*, stringer, modular, laminate)

INTERNATIONAL SEARCH REPORT

International application No.
PCT/CA2005/000420

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of the first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons :

1. ☐ Claim Nos. :
because they relate to subject matter not required to be searched by this Authority, namely :
2. ☐ Claim Nos. :
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically :
3. ☐ Claim Nos. :
because they are dependant claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows :

[see Supplemental Box No. III]

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claim Nos. :
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claim Nos. : 1-58, 84, 85

Remark on Protest ☐ The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
☐ The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
☐ No protest accompanied the payment of additional search fees.

Supplemental Box No. III

Group A - Claims 1-58, 84 and 85 are directed to a modular stringer comprising step support units having a main structural body, a first mating structure and a second mating structure, said first mating structure of said step support unit being adapted to be matingly coupled with an adjacent second mating structure of an adjacent step support unit such that said adjacent unit is vertically offset therefrom;

Group B - Claims 59-76 and 86 are directed to a modular stringer comprising step support units having at least one shaft and at least one coupling arm, said coupling arm of a first step support unit being adapted for accepting and solidly retaining said shaft of an adjacent step support unit therein such that said adjacent support unit may be vertically offset therefrom; and

Group C - Claims 77-83 and 87-90 are directed to a staircase comprising: at least two stringers; a series of steps adapted to be mounted to said stringers; and a plurality of step mounting brackets having a first flange and a second flange, each said step comprising a tread and a riser which are mounted to said stringers by said step mounting brackets.
